SERVING LEADERS AROUND THE WORLD

## ETHICS TRAINING

THAT'S PRACTICAL, DOWN-TO-EARTH, AND WORKS!

Today's Competitive Advantage on No-Nonsense Ethics Training

Ethics are agreed to be the single most important training and development need facing government, business, education and church leaders today.

- Effects of unethical acts and behavior take many forms.
- Allegations drain organizations financially.
- Reputation effects are long term.

Ethics training that works needs to be more than an annual "check the box" requirement that simply seeks to address individual behavior in order to:

- Limit liability.
- Avoid compliance memos.
- Highlight penalties.

P.L.I. provides a training opportunity that does more than reduce civil law suit exposure after the fact. It reduces the likelihood of the act taking place.
